## Diskusija – zašto sam odlučio/ odlučila otići na mobilnost i što očekujem od mobilnosti

The screenshot shows a forum thread titled "Learning and Training Activity in Spain, 10th-14th February 2020". The thread starts with a question: "Why you decided to go on mobility to Torrijos?". Below the question are two replies. The first reply, by Daniela Usmiani, explains that she wants to experience new things, meet new people, learn about their culture, make new friendships, and expand her coding knowledge. She also mentions experiencing air travel for the first time and living with a host family. The second reply, by M...rt, expresses a love for travel and meeting new people, and a desire to see a school and city, as well as to learn coding and share ideas.

Because I want to experience new things, meet new people, get to know their culture, make new friendships and expand my knowledge of coding. In addition, I will experience what it is like to travel by plane for the first time and live with another family for a week. :-)

# Rad na daljinu

- Alate i načine rada, razmjene uradaka prilagođavam stupnju digitalnih kompetencija učenika, njihovim mogućnostima i predznanju.
- Dajem rokove za izradu zadataka – razumne rokove (tjedan dana ili više za projektne zadatke)
- Dajem izazove – prvi dio satova računalstva bio je posvećen Netiquettu i Ergonomiji – snimi video s vježbama, izradi plakat – alat Flipgrid, Canva

The main body of the slide contains the following text: "Dragi učenici, dobro došli u našu Virtualnu učionicu matematike. Svaki tjedan u utorak navečer, najkasnije srijedu ujutro u 9:00 stavit ću vam materijale za rad. Nešto ćete pročitati, prepisati u bilježnice, riješiti i slikati te slike vaših radova [uploadati u svoje mape](#). Pazite na rokove, jer ako ne predate uratke na vrijeme niste napisali zadaću. Ne zaboravite u Yammeru staviti LIKE pored svake moje objave o postavljenim zadacima. Vjerujem da ćemo za tjedan dana biti majstori u tome. Sretno!
