

NEW BUILDING BLOCKS 2 – year 2

UNIT 5 PETS

ANIMALS (revision)

I always like to start things with a game and paper ball handball is a pretty good start. Before jumping onto Uncle Phil's Pet Shop unit, we revised all the animals' names we could think of.

STEP 1

Make a paper ball. Divide students into two teams and place them one opposite another.

STEP 2

Students throw a paper ball to the opposite team, naming an animal. They must name an animal that hasn't been named yet. The student who catches the paper ball throws it back.

STEP 3

The team that cannot remember any more animals or that repeats an animal, loses.

TIP: Let students help their teammates!
