

NEW BUILDING BLOCKS 2

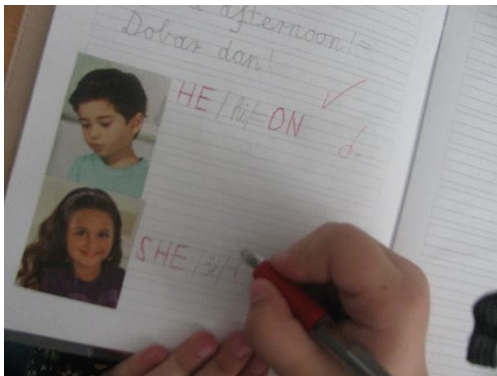

UNIT 1

„**She** is a boy and **he** is a girl!“

...hmmmm, well, I don't think so.

I think it's fairly common for our students to mix these two up. Right?

That's why, when doing this unit, I always prepare some extra pictures for them so they can practise, practise, practise.

I'm sure all of you can get your hands on various leaflets and brochures which advertise clothes. And there are always couple of pages reserved for kid's fashion only. I use those pictures to cut them out and share them with my students.

Since the pictures are rather smaller in size, they are perfect for sticking in their notebooks. Every student gets a picture of a boy and a picture of a girl, and next to it they write HE and SHE.

Also, since it's important that these terms really sink in without getting them mixed up, I do couple of other things, too.

If you'd like to find out what, watch these short videos: [First activity](#) & [Second activity](#)
