

Spelling time

Prepared by: Gordana Palada

You need three spinners.

Game A – One group – one spinner

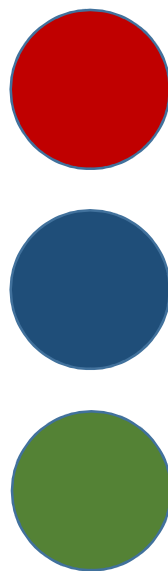

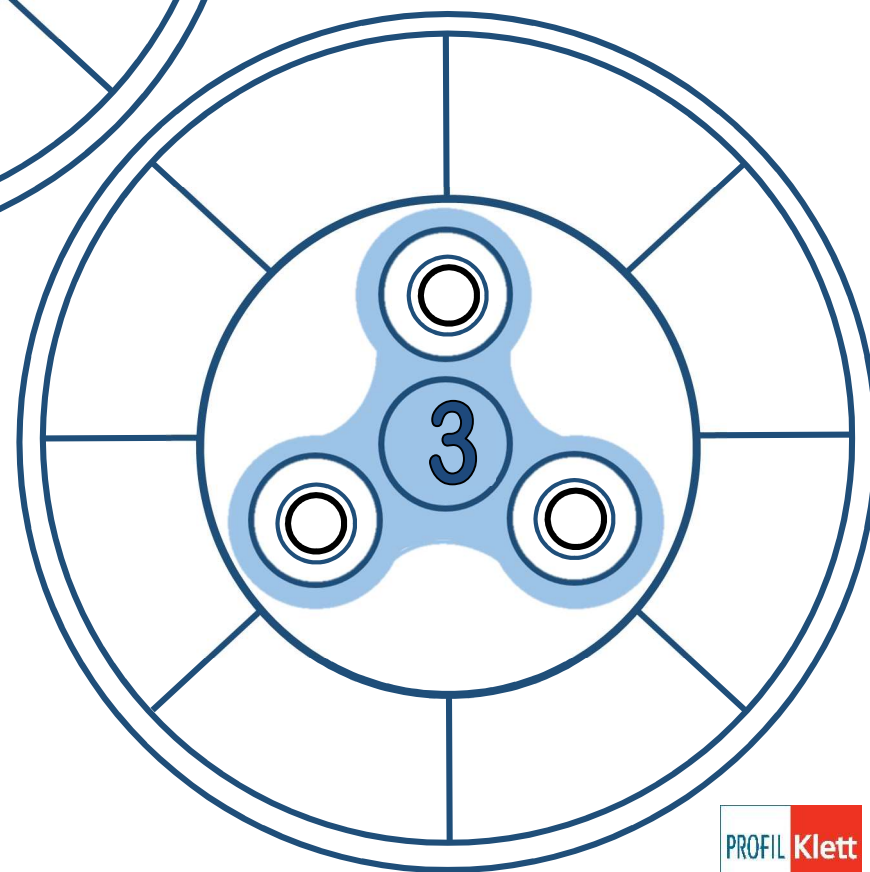

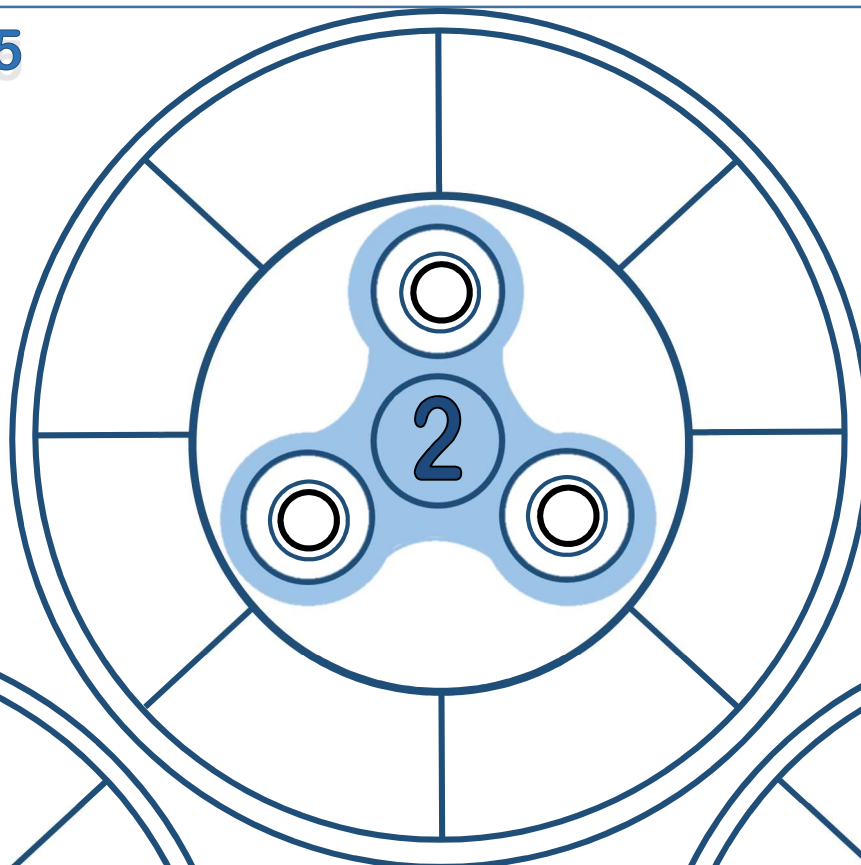

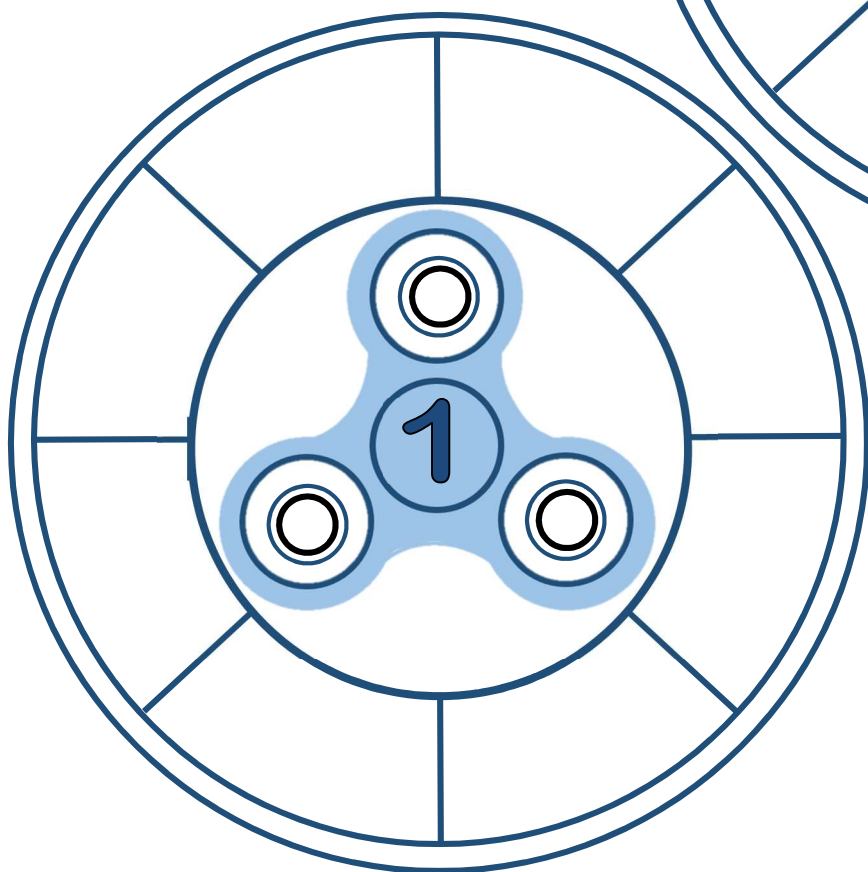

Game B – One group – one colour
Label each spinner red, blue and green. Choose your colour.

Each group must spell the word according to the chosen colour.

Good luck! ☺

Game A – One group – one spinner

Game B – One group – one colour
Label each spinner red, blue and green. Choose your colour.

Each group must spell the word according to the chosen colour.

Good luck! 😊

Teachers' note

You need three spinners. You can use one spinner as well, but playing with 3 spinners and using all three prongs of the spinner at the same time is time-saving.

Game 1 – Divide students into three groups. Each group spins one spinner and three members of the group spell the words they get. Before the second spin, the groups switch – they exchange spinners until each group has gone through all of them.

Game 2 – Divide students into three groups. (one group - one colour). Label each spinner red, blue or green – each group should choose one colour. Spin the spinner N° 1. One member of each group must spell the word according to the chosen colour. Continue playing with other spinners.

Suggestions – 1) Time limit for spelling can be set by the spinning time of the second spinner.

(Spin the spinner N° 1 .When you get the result spin the spinner N° 2 – you must spell the word you got while the spinner N° 2 is spinning.)

2) Spelling dictation – one member of a group spells the word and the other one writes it on the board.

The blank worksheet can be used with any topic. Fill in the fields with the target vocabulary and play 😊 .
