**This game can be used as an individual, pair or group work.**

**During the spinning time, the children must say all the forms of both tenses for the given noun/pronoun and verb.**

**Every time they say the correct form they/the teacher/a group member tick/ticks the box representing the activity (+ positive form, ? interrogative form, - negative form of the verb). Each line has 6 points.**

**During pair work, both students should use the same spinner as the spinning time may vary due to its quality.**

**The winner is the student/group who has the highest score when the spinner stops.**
