Today _____

4 Read the story. Then answer the questions.

Long ago, the Sun and the Moon were married. They had many children, who were the Stars. The Sun loved his star children more than anything, but every time he tried to hug them, the sky became too bright and they disappeared. The Moon was furious that her star children kept disappearing, so she banished the Sun from the sky.

The Sun missed his children, and tried to get them back. He threw sand in the Moon's face, and to this day you can still see the dark spots. To save herself and her children, the Stars, the Moon ran away. The Sun began to chase her, and the two have been circling the world after each other ever since.

- 2 What happened every time the Sun tried to hug his children?
- 3 What did the Moon do to the Sun?
- 4 What did the Sun do to the Moon?
- 5 How does the story end?
